ConnectedBits's Spot Reporters Platform supports Boston's 311 system by providing the BOS:311 mobile app and web portal. The City is in the midst of a transition of their 311 infrastructure, and will be replacing their current CRM, Lagan, with a new system, Creatio. The transition from Lagan to Creatio will be incremental, with Services requests ported from Lagan to Creatio in tranches. In order to ensure continuity of services, the City of Boston is looking for professional services to integrate ConnectedBits's public-facing technology with the Creatio CRM, allowing for the smooth transition off of Lagan and into Creatio.
