## PROJECT:

Construction of a new post-security connection between Terminal A and Terminal B. This is the final phase to complete post-security connectivity between all Logan International Airport terminals. Terminal A is the only terminal that is not directly connected post-security to the other terminals. This project will enable the circulation of all screened passengers through the secured area of all terminals at Logan International Airport, improving transfers and connections to and from other domestic and international destinations for all airlines. The project will include a new exit lane between Terminals A and B, additional shell space, the opportunity for a future location for airside ground boarding operations
