## PROJECT:

We have over 2,000 existing bike racks on City of Boston sidewalks and plazas. We want to maintain a state of good repair for these assets. Over time, racks may become rusty, their mounting may fail, or they may get knocked over by motor vehicles. A successful respondent will be able to re-install racks that have become loose or unbolted from the surface; remove and dispose of bike racks that are rusted out, bent, or broken; and, where possible, replace them with a new rack.

**ADDITIONAL INFORMATION**

This is a Construction Management at Risk project under M.G.L. c. 149A. Interested firms must submit a Qualification Statement by the deadline and be prequalified if they are interested in later bidding on the project. DCAMM Certification applies to this process. This Request for Qualifications is the first part of a two-step process for Trade Contractors. First, interested firms must submit the qualification statement. Then, at a later date, only pre-qualified firms will be invited to submit bids for the category of works in which they were prequalified. This Qualification Statement is different from DCAMM Certification. All firms must be qualified for this project, even if they are already DCAMM Certified. The Construction Manager is Barr and Barr, Inc.

## PROJECT:

The intent of the project is to separate passenger cars from buses at the roadway curbsides on the arrivals level/Level 1 (ground level) at Terminal B, Piers A and B. This will be accomplished by repurposing the Level 1 garage interior to install travel lanes and new curbs where passengers may be picked up by the passenger cars. This modification includes relocating the limousine pool from inside garage Level 1 to the Level 2 turnaround curbside, and relocating taxi and shuttle stands from inside garage Level 1 to Piers A and B curbsides on Level 1. The project includes lighting improvements, and comprehensive structural repairs throughout the garage on Levels 1–5 and roadway on the Level 2 (departure level).
