ADDITIONAL INFORMATION

This Request for Qualifications (RFQ) is the first phase of a two-phase procurement process as set forth in M.G.L. c.149A. UMBA, through its Prequalification Committee, is prequalifying Elevator Trade firms interested in providing public construction services for the Computer Sciences Laboratories through this RFQ process. The required Statement of Qualifications (SOQ) is different from DCAMM Certification. All subcontractors must be prequalified for this project. Based on information provided in the SOQs submission, the Prequalification Committee will prequalify respondents it deems to be qualified in accordance with the criteria set forth in the RFQ. Only prequalified firms will be permitted to submit bids for the category of work in which they were prequalified.

DESCRIPTION OF PROPERTY:

Uniqueness Determination of acquisition via lease of property at intersection of Washington and Main St. (327 Main St.), Easton, MA 02356, said property owned by landlord Stonehill College. Site necessary for fire station construction based on feasibility analysis. Parties with beneficial interest: Stonehill College.

ESTIMATED VALUE, SOURCE OF VALUATION:

Rental fee of \$5,000 per acre (5 acre site) per year - based on arm's length negotiation.

ADDITIONAL INFORMATION

The Town of Easton, through a comprehensive feasibility and site analysis process undertaken by its Municipal Building Committee, having reviewed available and potentially available real estate within the boundaries of the Town coupled with response time studies for potential new fire stations, has determined that a portion of land owned by Stonehill College located at South East intersection of Washington St. and Main St. (a/k/a "Dailey's Corner") to possess unique qualities and location both of which render it critically important to the Town's broader efforts to replace police, fire and public works facilities. Specifically, the Town has determined that advertising will not benefit the Town of Easton because of the unique qualities and location of the property needed including its size, developability, proximity to major population clusters, and access to major roadways.
