(required for building contracts over \$150,000 and
highway contracts over \$50,000)

PROJECT:

Request for General and Trade Contractor Qualifications for the Princeton Public Safety project. The Town of Princeton is replacing its main Fire Station and its Police Station with a new, combined, public safety building that is to be built on the site of a former school that is slated for demolition before this construction begins. The new approximately 14,000 sf building consists of two stories with vehicle bays, garage, holding cells, administration area, dispatch center, fitness center and offices. There are no public utilities so the new site will need a well water system, a septic system, fire suppression water storage tank and PFAS remediation system. Estimated total project duration is 16 months.

DESCRIPTION OF PROPERTY:

A vacant parcel of land located on Somerset Avenue, Taunton, MA, consisting of 3.15 acres, more or less, with sufficient frontage on Somerset Avenue to construct a municipal fire station to service the general area of the City. The property is depicted as "proposed lot" on the attached plan titled "Existing Conditions Survey Somerset Avenue" drafted by Reed Land Surveying, Inc. dated 11/5/25, incorporated herein by reference. Said premises includes portions of Assessors' parcels 91-195 and 91-194. Parties with beneficial interest: The Somerset Avenue Nominee Trust and William A. Biss.

ESTIMATED VALUE, SOURCE OF VALUATION:

\$250,000.00 - Appraisal estimated value

ADDITIONAL INFORMATION	The parcel consists of approximately 3.2 acres of vacant land with adequate frontage on Somerset Avenue, meeting the City's specific operational, siting, and safety requirements for the construction of a municipal fire station to serve the surrounding area. Few, if any, parcels along Somerset Avenue possess the necessary combination of acreage, frontage, and location needed for this public purpose. The use of this property for a municipal fire station directly advances the City's public safety goals and provides a substantial public benefit. Its location on Somerset Avenue ensures appropriate emergency response access and coverage for the community. The parcel's size, topography, frontage, and immediate area make it uniquely suited to accommodate the building footprint, apparatus bays, parking, circulation areas, and other infrastructure necessary for a modern station.
