V. Any additional notes on perceived causes of discrepancies:

Question 1 - One ballot cast as Overvote by Registrars during Audit, included above as a blank so 100, was not automatically calculated as blank in your formula. The UOCAVA handcount on Election Night listed 33 ballots counted but the total ballot count included the square with heavy red line drawn through the tally grid vertically to differentiate the R from the N ballots making it appear as if an additional ballot was counted (recorded as blank on Election Night) actual number of UOCAVA ballots confirmed by Audit. Write Ins with names but no ovals converted blanks to votes.
