V. Any additional notes on perceived causes of discrepancies:

An early ballot was found in the hand count section of the black box, (gray header side facing up) after election night when the box was put in storage. 28 hand counted ballots were removed on election night but this one was missed. Because it should have been counted on election night, it was included in the audit, making the audit and election night total off by one. Also, it appears that one of those 28 removed from the bin, intended to be hand counted, was not. This attributed to one more ballot being added to the audit total, which made our audit count 2272 compared to the election night count of 2270.
