V. Any additional notes on perceived causes of discrepancies:

We had one additional ballot in the hand count due to the CTF dropping one ballot due to ballot jams of folded ballots for early vote ballots. Any other minor discrepancies I attribute to interpretation of ballots during the audit hand count and the fact that we were unable to manually go through all early vote ballots at the end of the night as we were forced to do a hand count on a precinct as a memory card was corrupted and did not have the results from the tally during the day when we tried print the results at the end of the day. The early vote process caused many problems on election day and changes in the process are needed for future use.
