**If more than fifty percent of private property owners in a proposed National Register District object to listing, the nomination will not be included in the final agenda. Every property owner of record may comment and/or object to the proposed National Register Historic District in accord with the National Historic Preservation Act and 36 CFR Part 60. These regulations require that owner objections be notarized. However, Section 1746 of Title 28 of the U.S. Code provides a generally applicable alternative to these notarization requirements. Accordingly, the NPS must consider objections made under penalty of perjury consistent with 28 U.S.C. § 1746 to be valid objections, even if they are not notarized, if those objections otherwise comply with the requirements in the NPS's regulations. These objections must be counted as valid objections when determining whether a majority of private property owners have objected to listing a property in the National Register. Please contact MHC staff for instructions on submitting a comment or objection.*
